# **NAME**

itop – top-like interrupt load monitor

# **PACKAGE**

UNItools

# **SYNOPSIS**

# **BESKRIVELSE**

itop(1) is a glorified Linux centric vesion of cat /proc/interrupts.

# **OPTIONS**

- -a Display information on all interrupts.
- -n *number*

Stop after flnumber interactions. May kill the application in suc a way, that the tty becomes useless.

# **INTERRUPT TABLE**

Kernel dependent.

# **COMMANDS**

Written in C(1), but requires procfs(1)0

# **SE OGS**
